

## Autumn Newsletter –Class 6

We have an exciting term ahead for class 6 learners and the Sixth Form theme for this term is Space and Galaxies.

As part of our independent living skills program we will be shopping on a budget, buying the ingredients for scone shop and then developing these skills by preparing our own lunch.

Outdoor learning opportunities will include visits to Foxglove Covert. We will continue the work we started last term developing the CRC sensory garden and work towards the Duke of Edinburgh Award.

Finally throughout the term we have the opportunity for learners to gain work experience at: the Cone Exchange in Harrogate; PRS producing woodwork products for enterprise; Chop art and Chop Sticks producing mirrors, splash backs and placemats with our theme of space and galaxies. All items will be available for sale in our shop.
